

**DON PEDRO HYDROELECTRIC PROJECT
FERC NO. 2299**

AMENDMENT OF APPLICATION

**INITIAL STATEMENT
EXECUTIVE SUMMARY
EXHIBITS A THROUGH H
ATTACHMENT A: DISTRICTS' RESPONSE TO COMMENTS ON
DRAFT LICENSE APPLICATION
ATTACHMENT B: CONSULTATION RECORD
ATTACHMENT C: FINAL STUDY REPORTS
ATTACHMENT D: COMMENTS ON THE DRAFT REVISED
SUBSTITUTE ENVIRONMENTAL DOCUMENT**

Prepared by:
Turlock Irrigation District
P.O. Box 949
Turlock, CA 95381

and

Modesto Irrigation District
P.O. Box 4060
Modesto, CA 95352

September 2017

**DON PEDRO HYDROELECTRIC PROJECT
FERC NO. 2299**

AMENDMENT OF APPLICATION

MASTER TABLE OF CONTENTS

MASTER TABLE OF CONTENTS

Initial Statement

Executive Summary

Exhibit A Don Pedro Project Description

Exhibit B Don Pedro Project Operations and Resource Utilization

- Appendix B-1 Current License Articles
- Appendix B-2 Development of Unimpaired Hydrology
- Appendix B-3 1997 to 2012 Historical and Base Case Annual and Monthly Flow Duration Curves
- Appendix B-4 Base Case Conditions 1971 to 2012

Exhibit C Construction History and Proposed Construction Schedule

Exhibit D Statement of Costs and Financing

Exhibit E Environmental Report

- 1.0 Introduction
- 2.0 Proposed Action and Alternatives
- 3.0 Environmental Analysis
 - 3.1 General Description of the Tuolumne River Basin and Don Pedro Project
 - 3.2 Scope of Cumulative Effects Analysis
 - 3.3 Geology and Soils
 - 3.4 Water Resources
 - 3.5 Fish and Aquatic Resources
 - 3.6 Botanical Resources
 - 3.7 Wildlife Resources
 - 3.8 Threatened and Endangered Species
 - 3.9 Recreation, Land Use, and Shoreline Management
 - 3.10 Aesthetic Resources
 - 3.11 Cultural Resources
 - 3.12 Socioeconomic Resources
- 4.0 Cumulative Effects of the Proposed Action
- 5.0 Developmental Analysis, Districts' Preferred Plan and Alternatives Proposed By Others
- 6.0 Consistency with Comprehensive Plans
- 7.0 Literature Cited
- 8.0 Consultation Record

Appendix E-1	Supporting Documentation for Developmental Analysis, Preferred Plan and Alternatives Proposed by Others
Attachment A	Preliminary Gravel Augmentation Designs for Don Pedro Hydroelectric Project
Attachment B	Gravel Mobilization Flow Availability
Attachment C	Predator Control and Suppression Plan for the Lower Tuolumne River
Attachment D	Examples of Temporary Moveable Barrier Weirs for Reduction of Superimposition
Attachment E	Purpose, Description, and Preliminary Layout of Proposed Fall-Run Chinook Salmon Restoration Hatchery
Attachment F	Adaptive Management of Pulse Flow Timing for the Benefit of Fall-Run Chinook Salmon in the Lower Tuolumne River
Attachment G	Summary Description and Results of Operations and River Temperature Model Simulation of the Districts' Preferred Plan
Attachment H	Summary Description and Results of Operations and River Temperature Model Simulation of the Alternative Flow Scenarios

Appendix E-2	Fire Prevention and Response Management Plan
Appendix E-3	Spill Prevention, Control and Countermeasure Management Plan
Appendix E-4	Aquatic Invasive Species Management Plan
Appendix E-5	Woody Debris Management Plan
Appendix E-6	Terrestrial Resources Management Plan
Appendix E-7	Recreation Resource Management Plan
Appendix E-8	Draft Historic Properties Management Plan (<i>Filed only with the Federal Energy Regulatory Commission as Privileged Information; Not Released to the Public</i>)
Appendix E-9	Draft Applicant-Prepared Biological Assessment California Central Valley Steelhead (<i>Oncorhynchus mykiss</i>) Distinct Population Segment
Appendix E-10	Draft Applicant-Prepared Biological Assessment for Terrestrial Species
Appendix E-11	Applicant-Prepared Essential Fish Habitat Assessment

Exhibit F **General Design Drawings** (*Contains Critical Energy Infrastructure Information [CEII]; Not Released to the Public*)

Appendix F-1	Exhibit F Drawings (<i>Filed only with the Federal Energy Regulatory Commission as CEII</i>)
Appendix F-2	Supporting Design Report (<i>Filed only with the Federal Energy Regulatory Commission as CEII</i>)

Exhibit G Project Maps

Exhibit H Plans and Ability of Applicants to Operate the Don Pedro Hydroelectric Project

Appendix H-1	Fourth Agreement
Appendix H-2	Single Line Diagram
Appendix H-3	1972 Army Corps of Engineers Flood Control Manual
Appendix H-4	Don Pedro Recreation Agency Regulations & Ordinances

List of AFLA Attachments

Attachment A Districts' Response to Comments on Draft License Application

Appendix A	Assessment of Don Pedro Project Operations to Meet EPA Region 10 Guidance for Pacific Northwest State and Tribal Temperature Water Quality Standards
Appendix B	Response to Conservation Groups' Comments Regarding Cumulative Effects Analysis
Appendix C	Response to Tuolumne County Board of Supervisors' Comments on the Districts' Socioeconomic Study Report

Attachment B Consultation Record

Appendix A	Relicensing Participants Consultation Record Documents
Appendix B	Agency Consultation Record Documents
Appendix C	Relicensing Website Announcements Record Documents

Attachment C Final Study Reports

CR-01	Historic Properties (<i>Filed only with the Federal Energy Regulatory Commission as Privileged Information; Not Released to the Public</i>)
CR-02	Native American Traditional Cultural Properties (<i>Filed only with the Federal Energy Regulatory Commission as Privileged Information; Not Released to the Public</i>)
RR-01	Recreation Facility Condition and Public Accessibility Assessment, and Recreation Use Assessment
RR-02	Whitewater Boating Take-out Improvement Feasibility Study
RR-03	Lower Tuolumne River Lowest Boatable Flow Study
RR-04	Visual Quality Study
TR-01	Special-Status Plants Study
TR-02	ESA- and CESA-Listed Plants Study
TR-03	Wetland Habitats Associated with Don Pedro Reservoir Study
TR-04	Noxious Weed Survey
TR-05	ESA-Listed Wildlife - Valley Elderberry Longhorn Beetle Study

TR-06 Special-Status Amphibians and Reptiles Study
 TR-07 ESA-Listed Amphibians - California Red-Legged Frog Study
 TR-08 ESA-Listed Amphibians - California Tiger Salamander Study
 TR-09 Special-Status Wildlife - Bats Study
 TR-10 Bald Eagle Study
 W&AR-01 Water Quality Assessment
 W&AR-02 Project Operations/Water Balance Model
 W&AR-03 Reservoir Temperature Model
 W&AR-04 Spawning Gravel in the Lower Tuolumne River Study
 W&AR-05 Salmonid Population Information Integration and Synthesis Study
 W&AR-06 Chinook Salmon Population Model
 W&AR-07 Predation Study
 W&AR-08 Salmonid Redd Mapping Study
 W&AR-10 *Oncorhynchus mykiss* Population Study
 W&AR-11 Chinook Salmon Otolith Study
 W&AR-12 *Oncorhynchus mykiss* Habitat Survey
 W&AR-13 Fish Assemblage and Population Between Don Pedro Dam and La Grange Dam Study
 W&AR-14 Thermal performance of wild juvenile *Oncorhynchus mykiss* in the Lower Tuolumne River: a case for local adjustment to high river temperature
 W&AR-14 Districts' Response to NMFS Comments on the Draft Study Report for the Thermal performance of wild juvenile *Oncorhynchus mykiss* in the Lower Tuolumne River: a case for local adjustment to high river temperature
 W&AR-15 Socioeconomics Study
 W&AR-16 Lower Tuolumne River Temperature Model
 W&AR-17 Don Pedro Reservoir Fish Population Survey
 W&AR-18 Sturgeon Study
 W&AR-19 Lower Tuolumne River Riparian Information and Synthesis Study
 W&AR-20 *Oncorhynchus mykiss* Scale Collection and Age Determination Study
 W&AR-21 Lower Tuolumne River Floodplain Hydraulic Assessment
 Development of Tuolumne River Flow and Temperature Without Dams Model
 Districts' Response to NMFS-1, Elements 3 and 6: La Grange Development Affected Environment
 Districts' Response to NMFS-4, Element 1 through 6 Effects of Don Pedro Project and Related Facilities on Hydrology for Anadromous Fish: Magnitude, Timing, Duration, and Rate of Change
 In-River Assessment of Swimming and Feeding Behaviors and Inferences of Metabolic State of *Oncorhynchus mykiss* in the Lower Tuolumne River
 In-River Diurnal Temperature Variation Study
 Lower Tuolumne River Instream Flow Study
 Lower Tuolumne River Instream Flow Study—Evaluation of Effective Usable Habitat Area for over-summering *O. mykiss*
 Lower Tuolumne River Instream Flow Study—Non-Native Predatory Bass 1-D PHABSIM Habitat Assessment

Lower Tuolumne River Instream Flow Study—Pacific Lamprey and Sacramento Splittail 1-D
PHABSIM Habitat Assessment

Lower Tuolumne River Instream Flow Studies - Pulse Flow Study

Re-analysis of Tuolumne River Rotary Screw Trap Data to examine the relationship between
river flow and survival rates for Chinook smolts migrating between Waterford and
Grayson (2006-14)

Regional Economic Impact Caused by a Reduction in Irrigation Water Supplied to Turlock
Irrigation District and Modesto Irrigation District: Methodology Technical Memorandum
Salmonid Redd Mapping 2014/2015 and 2015/2016 Monitoring Report

Development of Tuolumne River Flow and Temperature Without Dams Model

Ward's Ferry Take-Out 2016 Observations Technical Memorandum

**Attachment D Comments from Turlock Irrigation District, Modesto Irrigation District,
the City and County of San Francisco, and the San Joaquin Tributaries
Authority on the Amendment to the Water Quality Control Plan for the
San Francisco Bay/Sacramento-San Joaquin Delta Estuary and
Supporting Draft Revised Substitute Environmental Document**
